DVE ABRAMS AN/VAS-5B(V)4

About NVTS:

Established in 2010, NVTS designs and manufactures thermal and visible camera systems for Armored Vehicles, Search and Rescue, Threat Detection, and Situational Awareness.

Being steps away from the North Atlantic, we understand harsh environments; designing our products to operate in the most extreme conditions.

Our Advantage:

We regularly innovate and aggregate new technologies and materials to increase performance, quality, lead times and lower costs for our customers.

Our goal is to constantly drive innovation, provide superior quality/ service, remain easy to deal with, and do it better than anyone else.
